

## I Need Your Love By:peter queal

I need your love, gift from above  
Will you be mine, for all time  
You give love that I've needed for  
so long

And your love's never done me wrong  
No, your love's never done me wrong

Say you will stay, need me each day  
We'll let it show, our love will  
grow

With the sun in the evening we'll  
lie down

We'll be warm when there's cold  
around

Share the joy that our passion's  
found

We've found a love honest and  
strong

You fill my heart, sure is my song  
All we have, all we give, all we  
share

Look to you and I'll find it there  
Look to you and I'll find it there
