

Your Love Has Made My Life A Song

By:Dayna Spencer

While sitting on the edge of summer, on a tour through the zoo
Music playing from the cages, feeling magic I saw you

Dancing and seeing reflections in mirrored eyes
There were numbers in the air and two hearts took to the skies

Now the red roses are in bloom even when the world is white
And the sun's forever shining even on a new moon night

Chorus

Your love has made my life a song...

Me road has taken a new turn, we road is where we'll be
Greeting each ray of sunshine, love will set us free

The combination has been figured, dreams of a pure heart grow
Call me your love again and again let the river of happiness flow

You've made a life a song, you can make the notes so sweet
And the seasons ore changin' new challenges to meet

Side by side through thick and thin, savoring thoughts of wondrous
times

Inspiring, desiring thoughts turn into rhymes

With pen flowing from the heart, and notes to help the flow
This song is for you, just wanting to let you know
